## STUDENT ATHLETIC CONTRACT

Every sport has inherent risks, and regardless of the precautions taken, it is impossible to ensure the safety of the participant. Athletics requires a high level of fitness. It requires quick bursts of speed, long period of running, and jumping. It also can involve contact with other participants, balls, the floor, and other objects in the gymnasium or the field. It is a reasonably safe sport as long as certain guidelines are followed.

Some hazards are the possibility of being hit by the ball, colliding with other players, or with objects in the gymnasium or on the field during a game or practice. A variety of injuries may occur including, but not limited to muscle strain, sprains, fractures, contusions, abrasions, and dehydration. Serious and disabling injuries and even death could result from participation of volleyball. It is not possible to list each specific risk.

To help reduce the risk of injury to yourself and other participants, the following safety rules need to be followed during practice and games (1) Wear all of the equipment given to you by the coaches and/or trainers or doctors (2) obey the rules of the sport, (3) report any discovered defects in the game or practice area or in the equipment immediately.

I agree to follow the preceding safety rules as well as others given to me by the coach. I also agree to report any injury to the coaching staff on the day that it occurs.

I certify that (1) I am physically fit to participate in athletics, (2) I understand that I am free to discontinue activity at any time I feel undue discomfort or stress, and (3) ***on the following lines is a complete list of any health-related conditions that might affect my ability to participate in athletics.***

I have read and agree to follow the guidelines set forth in the **Athletic Handbook**. I understand the provisions, fees, guidelines, rules and consequences of breaking said rules.

I/we agree to do our best to exemplify Christ at all times at school, games and at home.

**Concussion Management**  
A concussion is a disturbance in the function of the brain that can be caused by a blow to the body or head and may occur in any sport or activity. Effects of a concussion may include a variety of symptoms (headache, nausea, dizziness, memory loss, balance problem) with or without a loss of consciousness. If we understand there is a concussion management protocol established that includes care and return to play criteria.
